School Meals Fiscal Impact Report

The *School Meals Fiscal Impact Report* (SMFIR) is a reviews of and comparison by school breakfast and lunch participation of eligible free and reduced price students for the 2008-2009 and the 2009-2010 school year (SY). The Annual Yearly Progress (AYP) has been included for each school, the type of breakfast service, and if the school is Provision 2. The report also highlights by district the number of meal reimbursed and the potential reimbursement if all eligible children participated in the breakfast and lunch meal service. The report concludes with the total fiscal impact for Nevada if all eligible children participated in the breakfast and lunch meal service.

It is anticipated that districts will utilize the data to determine where breakfast and lunch programs could have a significant impact on the life of a child by providing nutritious meals and improving academic performance. Districts would be able to target schools for improved participation where breakfast and lunch participation is below the Nevada and national averages.

Nevada's breakfast participation average was 13.11%, while the national participation average was 25.67% for the 2009-2010 SY. Nevada's lunch participation average for the 2009-2010 SY was 41.54% while the national lunch participation average was 62.92%. Nevada was ranked as having the lowest participation for both breakfast and lunch for the 2009-2010 SY.
