SB503: Breakfast After the Bell

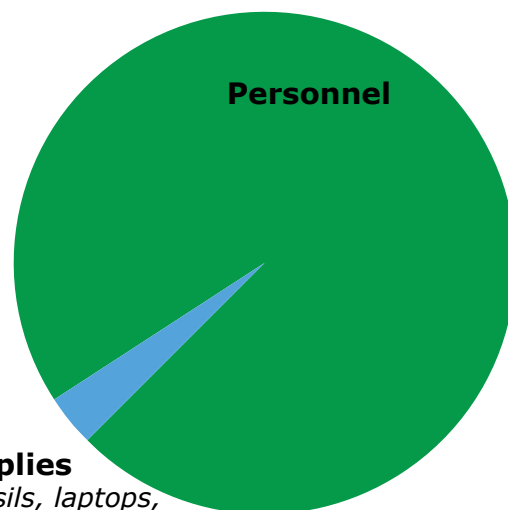

2016-2017 School Year Progress Report

The following data shows progress in grant applications and awards and implementation in the 2016-2017 school year. In the previous school year, only schools who had 70 percent or greater free and reduced eligibility school-wide *and* had not previously implemented breakfast after the bell were eligible for grant funds. In the 2016-2017 school year, all schools with 70 percent or greater free and reduced eligibility school-wide were eligible for grants fund and grants were awarded on a competitive basis.

SUCCESS AUGUST 2016 - PRESENT

- + **98 schools** were awarded **\$988,027** in grant awards, increasing access to breakfast for more than **101,566** students statewide.
- + **243 schools** across eight school districts and two state-sponsored charter schools were eligible for grant funds.
- + **169 applications** for funding were received, requesting a total of \$2,394,355. All seven school districts or state-sponsored charter schools that applied received some funding.
- + Increased access to breakfast in high-need schools is important because extensive research has shown that students who eat breakfast **succeed academically**, have **fewer behavioral issues** and **fewer visits to the school nurse**.

FUNDING REQUESTS

Supplies
utensils, laptops, trash receptacles

The large amount of personnel funding requested is due to the increased implementation of breakfast in the classroom and other labor-intensive means of serving breakfast after the bell.
