BUDGET NARRATIVE

FFVP grant awards range from \$50-75 per student using the enrollment as of March 31, 2017. The United States Department of Agriculture dictates that grant awards must be in this range. For example, if a school had a total student enrollment of 100 on March 31, 2017 the grant award amount would be between \$5,000 and \$7,500. The amount awarded per student will be the same for all schools receiving a grant award. The awarded amount must be budgeted to serve all students at least twice a week for the entire school year. Additional funding will not be awarded to cover costs exceeding your initial award amount. For more guidance on appropriate budget expenditures, refer to the FFVP manual posted on the website www.agri.nv.gov. To ensure proper spending of award amount, answer the following questions assuming a \$50 per student award was allotted.

a. Total budget (\$50 x # of students): _____

b. Startup Costs (i.e. serving supplies, training hours etc.):

c. Monthly Labor Costs- after subtracting any startup costs, what is your monthly budget for FFVP? Please show the total budget for the month and a breakdown of how much of the monthly budget will be allocated for produce, labor and supplies.

d. How will you account for short months (i.e. during winter and spring break)? How will the funds for that short month be redistributed?

SY 2017-2018

- e. What measures will you take to ensure the budget is being followed and to ensure that students will get to benefit from this program all school year?
